My hang-gliding experience with Harry and Harriet's Hang-gliding Haven was okay. While the instructors were friendly, I found the overall professionalism lacking compared to other companies I've tried. The location was decent, but it didn't have that wow factor I was hoping for. However, the equipment was functional, and I felt reasonably safe throughout the flight. It was an average experience, but I might explore other options next time.

My experience with Harry and Harriet's Hang-gliding Haven left me with mixed feelings. While the instructors were knowledgeable, I felt the overall organization could have been better. The location was scenic, but I expected a bit more variety in the landscapes. The equipment was decent, but some parts seemed a bit worn. Overall, it was an average experience, but I think there's room for improvement.
